RE: DRC Sign Design Review
L&W Supply Co.
20 Trotter Dr – Medway, MA

Dear Mr. Donegan,

Thank you for submitting the proposed signage for L&W Supply Co. to the Medway Design Review Committee (DRC) for review. The information was filed with the Town on March 24rd, 2021.

Pursuant to the Medway Zoning Bylaw, SECTION 7.2 Sign Regulations, this communication serves as the DRC's review letter regarding the proposed free-standing sign, wall façade signs, panel for the multi-tenant sign, and door signs for L&W Supply's facility at 20 Trotter Drive in Medway. Please be advised that this letter does NOT constitute approval of a sign permit. You must still apply for and secure a sign permit from the Medway Building Department prior to sign installation. Do not install the signs before obtaining the required permit.

On Monday, April 5, 2021, the DRC met with your representative, Taylor Campbell of Ardon Visual Communications of Woburn, MA, to review the proposed signage for L&W Supply Co at 20 Trotter Drive. You have proposed the following as represented on the sign designs as prepared by Egan Sign of Wyomissing, PA. dated March 9, 2021. **(See Attached)**.

- **Sign A** - Replacement panel for the existing, one-sided, free-standing monument sign at the driveway entrance to the property from Trotter Drive - 60" wide x 48" high for a total of 20 SF. The sign will not be illuminated.
- **Sign B** - Wall Façade Sign (1) on the building's east façade - 116" wide x 48" high for a total of 38.66 SF. The sign will not be illuminated.
- **Sign C** - Wall Façade Sign (1) on the building's south façade - 101.5" wide x 42" high for a total of 29.6 SF. The sign will not be illuminated.
- **Sign D** – Door signs (4) with business name and store hours or address – each 3.3 SF. Vinyl cut copy.
- **Sign E** – Tenant panel (1) 22" wide x 3" high on the existing multi-tenant Development Sign at the entrance to the industrial park at Milford Street and Trotter Drive

Rachel Walsh, Member

The DRC offers the following comments/recommendations regarding the proposed signs:

- We notice in the property photographs provided by Egan Sign that there is a white free-standing monument sign(s) at the entrance(s) to the parking lot. That sign needs to be removed as the property is allowed only one monument sign.
- The Zoning Bylaw requires landscaping around the base of the monument sign 3' in all directions. Please include a landscaping plan with your sign permit application to the Building Department.
- The DRC recommends that the cabinet for the existing monument sign be repaired as it currently shows wear and dents.
- The DRC recommends that the property address be included on the monument sign at Trotter Drive.
- Door signage needs to be compliant with the total allowed for the property. The Zoning Bylaw specifies that door signs cannot exceed 2 SF per door. You will need to reduce the overall size of each door sign from 3.3 SF to 2 SF.

You indicated that you would consider these suggestions and move ahead. You are welcome to return to a future DRC meeting for further conversation and ideas regarding signage for L&W Supply Co. Please contact the Medway Planning and Economic Development office at 508-533-3291 if you would like to schedule another appointment with the DRC.

The DRC's goal is to enhance the identification value of business signs in Medway. We seek to help Medway businesses and organizations develop their signs as long-term investments, designed for sound readability with appropriate graphics and materials in a manner that suits budgetary constraints and enhances our community's appearance and appeal.

Thank you for your time. We are pleased to welcome L & W Supply Co. to Medway as the new owners of Merrimack Building Supply.

Sincerely,

Matthew J. Buckley
Chairman

NOTES

Note #1

Design Review.
a. Before filing for a sign permit with the Building Commissioner for any freestanding sign and for any other sign with 6 sf or more of sign surface area, a sign design review application must first be made to the Design Review Committee. The Design Review Committee shall review proposed signs for compliance with the Medway Design Review Guidelines. The submittal of application shall be in form and format as specified by the Design Review Committee. (Amended11-16-15)
b. The Design Review Committee shall meet with the applicant or its representative to review the proposed sign within 15 days of the receipt of a complete sign design review application (referred to herein as the application date). No later than 30 days from the application date, the Design Review Committee shall send its written review letter with recommendations regarding sign design to the Building Commissioner. Failure of the Design Review Committee to act within 30 days shall be deemed a lack of opposition thereto. These deadlines may be extended by mutual agreement of the Design Review Committee and the applicant. Any such extension shall automatically extend the period within which the Building Commissioner is required to act on a sign permit under this Section 7.2.6.
Decision. Within 45 days of the application date, the Building Commissioner shall issue or deny the Sign Permit.

Note #2

Special Event Sign: A sign which by its design and/or use is temporary in nature, frequently composed of paper, poster board, cardboard, fabric, canvas, vinyl, plastic, or other durable material, displayed for a period not to exceed 15 days, or the period to which the information on the sign is relevant, whichever is less, advertising a special event, sale, or service. The date of sign posting shall be included on the sign.
Special Event Signs. Special event signs displayed in the windows or doors of a ground-floor establishment shall not occupy more than 30% of the area of the window or door glass to which the sign is affixed. Special event signs shall not exceed 64 sf in sign surface area.
Temporary Business Sign: (Permit Exempt) A sign normally fabricated of vinyl, plastic, canvas, plywood, or other durable material, designed or intended to be displayed for a period not to exceed ninety days, for purposes of temporarily identifying the location of an establishment until a permanent sign is installed. The date of the sign posting shall be included on the sign. The size of a temporary business sign shall be the size allowed for a wall sign for the district in which the establishment is located.

Note #3

East Industrial, Energy Resource, and West Industrial Districts
(Title amended 11-13-17)

	Total Maximum Sign Surface Area (square feet)	Maximum # of Signs	Maximum Sign Height (feet)	Minimum Setback from any Street Lot Line (feet)	Illumination
Individual Establishment Wall Sign	Building sign Frontage x 1.0 not to exceed 100 per establishment*	2 per establishment	NA	NA	External Internal
Individual Establishment Freestanding Sign	40 not to exceed 30 per sign face	1 per establishment	6	10	External

* Unless an establishment has two or more building sign frontages. If so, see 7.2.5.B.8 (Amended 11-16-15)

7.2.5.B.8

When noted in the sign Tables, a ground floor establishment occupying a location that provides 2 or more building sign frontages may have 1 additional wall sign. The total maximum sign surface area permitted for all wall signs per establishment shall be 2X the amount of sign surface area that is allowed by the sign standard requirement of the respective zoning district. Said factor shall be applied to the building sign frontage where the establishment's main public entrance is located or, in the instance of a corner entrance, to the longest building frontage.
Building Sign Frontage: The distance in feet of the interior width of space occupied by an establishment based on the building side that faces a public or private street, way, or parking area.

Note #4

Sign Illumination.

Where this Zoning Bylaw allows illumination of signs in a district, the illumination must conform to the following:
1. All lighting shall be continuous and installed in a manner that will prevent direct light from shining onto any street or adjacent property. Whenever an external artificial light source is used to illuminate a sign, such source shall be located, shielded, and directed so as to not be directly visible from any public street or private residence. External light fixtures shall be hooded or shielded to reduce light trespass. Flashing, traveling, or intermittent light creating flashing, moving, changing, or animated graphics is prohibited, except that a warning sign, a device intended to tell the time and temperature, day and date, or official traffic and directional signs may have changing illumination.
2. Except for clocks, sign illumination is permitted only between the hours of 7:00 a.m. and 11:00 p.m., except that the signs of commercial and industrial establishments may be illuminated during any hours that these establishments are open to the public or in operation. This provision shall not apply to illuminated signs at public safety facilities.
3. Only white lights shall be used for the external illumination of a sign. Such illumination shall be shaded, shielded, directed and maintained at a sufficiently low intensity and brightness that it shall not affect the safe vision of operators of vehicles moving within the premises or on any adjacent public or private ways.
4. In all districts, no outdoor floodlighting or decorative lighting shall be permitted except lighting primarily designed to illuminate walks, driveways, outdoor living areas, or outdoor recreational facilities, and except temporary holiday lighting in use for not longer than a six week period in any calendar year. Such permanent lighting shall be continuous, external or indirect, and installed in a manner that will prevent direct light from shining onto any street or adjacent property.
5. The front faces of internally illuminated channel letter type signs shall have non-clear surfaces such that the neon tubing is not directly visible.

Note #5

Sign Surface Area/Sign Face:

Sign surface area/sign face shall be the smallest single rectangle as measured with vertical and horizontal lines, enclosing the entire graphic display area of a sign including but not limited to all lettering and wording, all accompanying designs, logos or symbols, and the extreme limits thereof of the accompanying background or mounting panel that is attached to the building or structure.
Sign Surface Area.
1. In calculating the sign surface area, there shall be no deductions for open space or other irregularities between letters and designs, symbols and logos. For a freestanding sign, all open spaces between individual sign panels shall be included in calculating the sign surface area/sign face.
2. All faces of a multi-faced sign shall be counted in computing a sign's total sign surface area.
3. Structural members, framework and bracing for awning, marquis and canopy structures that are incidental to the sign itself and do not bear advertising matter shall not be included in computing sign surface area unless such are internally illuminated.

FYI

Exempt Signs in All Districts.

•Signs up to 2 sf in sign surface area, used for identifying rest rooms, telephones, and other public facilities.
•"Open" or "Welcome" signs not exceeding 6 sf in sign surface area, NTE 1 such sign per establishment.
•Banner signs affixed to poles, NTE 3 sf of sign surface area per side, incorporating only seasonal graphic designs.
•Store hour signs, which may bear advertising matter, not exceeding a total of 2 sf in sign surface area, NTE a total of 1 such sign per establishment.
•"Now Hiring" signs not exceeding 6 sf of sign surface area, NTE 1 such sign per establishment.
•1 permanent inside window sign per establishment NTE 4 sf of sign surface area.
•Door sign not exceeding 2 sf of sign surface area per door.
Exempt Signs in all Commercial and Industrial Zoning Districts.
•Special event signs which shall not occupy an area in excess of 20% of the area of the window glass to which they are affixed, and shall pertain only to the establishment's own special sale, event or service lasting no more than 15 days.
•Temporary business sign.
•1 permanent window sign, as defined herein, per establishment located above the first story of the building in which the establishment is located provided that:
a. The sign surface area does not exceed 20% of the area of the glass of the window or 6 sf, whichever is less;
b. The window is part of the premises to which the sign is accessory;
c. The sign consists of individual letters or symbols affixed to the window or mounted on a clear, transparent background; and
d. The individual symbols or letters do not exceed 6 inches in height.
•1 permanent wall or projecting sign per establishment located on the building façade above the first floor of the building in which the establishment is located provided that:
a. The sign surface area of the sign shall not exceed 6 sf.
b. The location on the façade where the sign is attached is part of the premises to which the sign is accessory.
