REMOTE MEETING

Members	Andy Rodenhiser	Bob Tucker	Tom Gay	Matt Hayes	Rich Di Iulio	Jessica Chabot
Attendance	X	X	X	X	X	Absent with Notice

Pursuant to Governor Baker's March 12, 2020 Order Suspending Certain Provisions of the Open Meeting Law, and the Governor's Orders imposing strict limitations on the number of people that may gather inside in one place, no in-person attendance of members of the public will be permitted at this meeting. Board members will participate remotely via ZOOM. Meeting access via ZOOM is provided for the opportunity for public participation; information for participating via ZOOM is included at the end of this Agenda. Members of the public who wish to watch the meeting may do so on Medway Cable Access: channel 11 on Comcast Cable, or channel 35 on Verizon Cable; or on Medway Cable's Facebook page @medwaycable.

PRESENT VIA ZOOM MEETING:

- Susy Affleck-Childs, Planning and Economic Development Coordinator
- Barbara Saint Andre, Director of Community and Economic Development

The Chairman called the meeting to order at 7:00 pm. He read the above statement about the meeting being held remotely via ZOOM.

PUBLIC HEARING CONTINUATION - ZONING BYLAW
AMENDMENTS FOR FALL TOWN MEETING

The Chairman opened the continued public hearing on proposed amendments to the Zoning Bylaw for consideration at the Fall Town Meeting.

The Board is in receipt of the following. **(See Attached)**

- Public Hearing continuation notice dated 10-14-20 as filed with the Town Clerk
- Collection of 11 Articles with revisions as discussed at 10-6-20 hearing
- Proposed further edits to Article K – Special Permits in Central Business District based on discussion at 10-19-20 BOS meeting

Using the ZOOM Share Screen feature, Susy Affleck-Childs reviewed the collection of revised articles as had been discussed at the 10-6-20 hearing. The edits were shown in **red**. The Board concurred that all the edits shown were OK.

ARTICLE F – Environmental Standards

Resident John Lally of Coffee Street was also present via ZOOM and indicated that his recommended edits to Article F Environmental Standards from the 10-6-20 hearing had been incorporated.

Member Bob Tucker suggested a change in Article F, D. Standards, 3. Vibration. He noted that site blasting related to construction would probably violate this section. It was suggested that blasting authorized by state or local agencies should be exempt. Members agreed. Susy Affleck-Childs will consult with Community and Economic Development Director Barbara Saint Andre to add a suitable clarifying sentence to Article F.

ARTICLE K – Special Permits in the Central Business District

Barbara Saint Andre updated Board members on the conversation at the 10-19-20 BOS meeting. She reported that the BOS had reviewed the Board's 11 articles (as edited) and voted to recommend approval of most of them. Town Manager Michael Boynton suggested adding *municipal* uses to the list of allowed uses in a mixed-use building in Section 3.5.1 E. 1. This would create the opportunity for Town uses to be incorporated into a mixed-use development project in the Central Business District. The Board was amenable to this edit.

Barbara indicated that Selectman Dennis Crowley had expressed concern that the specified minimum percentage requirements of business uses in a mixed-use building was too high. Note, these amounts vary by the number of stories in a building.

All Board members present stated their commitment to the existing language indicating that they wanted to make sure that the primary focus for the central business district is business uses. Barbara Saint Andre concurred. It was further noted that a residential only building could be included when it is set back at least 100 feet from Main Street.

On a motion made by Rich Di Iulio, seconded by Tom Gay, the Board voted by roll call to approve the various articles as presented and amended.

Roll Call Vote:

Bob Tucker	aye
Andy Rodenhiser	aye
Matt Hayes	aye
Rich Di Iulio	aye
Tom Gay	aye

FUTURE MEETINGS:

- Tuesday, October 27, 2020 – Regular Meeting
- Tuesday, November 10, 2020 – Regular Meeting
- Monday, November 16, 2020 – Town Meeting

ADJOURN:

On a motion made by Rich Di Iulio and seconded by Matt Hayes, the Board voted by Roll Call vote to adjourn the meeting.

Roll Call Vote:

Andy Rodenhiser	aye
Bob Tucker	aye
Matt Hayes	aye
Rich Di Iulio	aye

TOWN OF MEDWAY **COMMONWEALTH OF MASSACHUSETTS**

PLANNING AND ECONOMIC DEVELOPMENT BOARD

October 14, 2020

NOTICE OF PUBLIC HEARING CONTINUATION **Proposed Amendments to Medway Zoning Bylaw** **Tuesday, October 20, 2020**

At the October 13, 2020 public hearing to receive public comments on proposed amendments to the Medway Zoning Bylaw, the Planning and Economic Development Board (PEDB) voted to continue the public hearing to Tuesday, October 20, 2020 at 7 pm. The hearing will be held remotely via the ZOOM online platform. Instructions on how the public may access the hearing will be included on the agenda for the October 20th PEDB meeting which will be posted at: <https://www.townofmedway.org/node/926/agenda/2020>

The proposed amendments have been prepared for inclusion on the warrant for consideration at the November 16, 2020 Town Meeting. The subject matter of the proposed amendments is summarized below. The specific article identifiers will be revised as the Board of Selectmen finalizes the warrant and assigns warrant article numbers.

ARTICLE A – Outdoor Lighting, Section 7.1.2

- Add a new paragraph G. to authorize the Planning and Economic Development Board, when acting as a special permit or site plan review authority, to adjust lighting standards under limited circumstances

ARTICLE B – Energy

- Modify definitions for “Electric Power Generation” and “Renewable Energy” and delete the definition of “Alternative Energy” in SECTION 2. DEFINITIONS
- Amend Use Table in Section 5.4 to simplify the listing for “Electric Power Generation”

ARTICLE C – Schedule of Use Table, Section 5.4

- Separate Motel and Hotel into separate use categories
- Prohibit certain specified Indoor Sale uses in the Central Business District
- Add “Parking Lot” to the Use Table in Section 5.4 and specify it is not allowed as a principal use
- Make other minor corrections

ARTICLE D – Multi-Family Housing, Section 5.6.4

- Revise Section 5.6.4 to add language that an applicant is not entitled to the maximum possible number of multi-family dwelling units

ARTICLE E – Setbacks, Section 6.2.F

- Add a new Section 6.2.F.4 to establish a clear sight triangle for corner lots and setbacks for corner lots

ARTICLE F – Environmental Standards, Section 9.3

- Replace Section 9.3 Environmental Standards, which governs noise, odor, vibration, dust, and other environmental concerns, in its entirety
- Inserts new definitions
- Sets updated standards for continuous noise, temporary noise, and construction noise
- Sets updated standards for disturbing, offensive or objectionable odors
- Sets updated standards for vibrations
- Establishes procedures for investigation of complaints
- Establishes certain exemptions for farming, residential uses, repairs, and public works

ARTICLE G – Miscellaneous Housekeeping

- Add a definition for “Parking Lot”
- Revisions to update and make corrections to section 4.2.A, Section 8.9, and Section 9 of the Zoning Bylaws
- Revise Section 6.1 TABLE 2 Dimensional and Density Regulations to require a minimum lot frontage of 50 feet in the Central Business, Village Commercial, and Neighborhood Commercial zoning districts

ARTICLE H – Adaptive Use Overlay District, Section 5.6.2

- Revise Section 5.6.2 to amend the list of allowed and prohibited uses to be consistent with terms that are defined in the Zoning Bylaw
- Clarify that adaptive use projects are allowed on properties located in the Adaptive Use Overlay District with at least 50’ of frontage on a street

ARTICLE I – Accessory Uses and Incidental Accessory Objects

- Add a definition of “Incidental Accessory Object” in Section 2 DEFINITIONS for visible, functional ornamental objects or man-made features subordinate to a principal building or structure or use
- Revise Paragraph H in Section 6.3 Accessory Buildings and Structures to prohibit a list of certain incidental accessory objects (e.g. animal hutch or pen, fire pit, etc.) within the required zoning setbacks

ARTICLE J – Building Size Limitation, Section 6.2

- Add a new paragraph G. Building Size to require a special permit for buildings larger than 100,00 sq. ft. for Business and Industrial and Related Uses listed in Sections D and E in the Table of Uses

ARTICLE K – Special Permits in the Central Business District, Section 5.4.1

- Add language regarding purpose, applicability and definitions
- Specify that the provisions of Section 8.6 Affordable Housing apply to mixed-use developments
- Allow some buildings comprised of all residential units in a mixed-use development under certain circumstances
- Add text regarding the composition of uses in a mixed-use development and mixed-use buildings
- Revise criteria for issuing a special permit for a mixed-use development

Drafts of the proposed amendments are on file at the offices of the Town Clerk and the Community and Economic Development Department at Medway Town Hall, 155 Village Street, Medway, MA and may be reviewed during regular business hours. The proposed amendments are posted online at the Planning and Economic Development Board's web page at <https://www.townofmedway.org/planning-economic-development-board/pages/proposed-zoning-bylaw-amendments-11-16-2020-town-meeting>. For further information or questions, please contact the Medway Planning office at 508-533-3291.

Interested persons or parties are invited to review the draft proposed amendments, and participate in the public hearing via ZOOM. Written comments are encouraged and may be sent to the Medway Planning and Economic Development Board, 155 Village Street, Medway, MA 02053 or emailed to: planningboard@townofmedway.org. All written comments will be entered into the record during the hearing.

PLANNING AND ECONOMIC DEVELOPMENT BOARD

BOARD OF SELECTMEN RECOMMENDATION:

FINANCE COMMITTEE RECOMMENDATION:

ZONING ARTICLE F

ARTICLE 12: (Amend Zoning Bylaws: Environmental Standards)

To see if the Town will vote to amend the Zoning Bylaws, Section 7.3. Environmental Standards, by deleting it in its entirety and replacing it as follows:

7.3. ENVIRONMENTAL STANDARDS

A. **Purpose.** The intent of this section is to provide standards for uses which, by their operation, may generate impacts that are potentially hazardous, harmful to the environment, disturbing, offensive or objectionable.

B. **Enforcement:** The Zoning Bylaw, § 3.1, Enforcement, Violations, and Penalties authorizes the Building Commissioner, or designee, to interpret and enforce the Bylaw. At the discretion of the Building Commissioner, a technical consultant may be engaged by the Town of Medway to investigate and document violations pursuant to this section.

C. **Definitions:** For purposes of this section of the Bylaw, the following terms shall be defined as follows:

Ambient Noise: The sound pressure level at a given location produced by everything else excluding the source of sound being monitored, analyzed, or evaluated. Also referred to as background noise. Ambient noise includes environmental noises from sources such as traffic, aircraft, waves, alarms, animals or noise from existing mechanical devices such as air conditioning, power supplies, or motors that are present prior to introduction of a new intrusive sound source that is being evaluated.

(Hz)Hertz: A unit of frequency of change in the cycle of a sound wave

(dB)Decibel: A unit of measurement of the intensity of sound

(dBA)A weighted decibel: An expression of the relative loudness of sound in the air as perceived by the human ear.

Detection Threshold: The lowest concentration or intensity of noise, odor, vibration, or other environmental hazard regulated by this bylaw that is noticeable to a reasonable person with normal sensory sensitivities.

Disturbing, offensive or objectionable odors: Those which are at or above the detection threshold of a person with normal olfactory sensitivity.

Octave Band: A frequency band where the highest frequency is twice the lowest frequency.

Odor Plume: The cloud of odor created when odor molecules are released from their source and are expanded through air movement.

Sensitive Receptor: An occupied residence or facility whose occupants are more susceptible to the adverse effects of noise and odor including but not limited to hospitals, schools, daycare facilities, elderly housing, and convalescent facilities.

D. **Standards.** The following standards shall apply to all zoning districts.

1. **Smoke, Fly Ash, Dust, Fumes, Vapors, Gases, Other Forms of Air Pollution:** All activities involving smoke, fly ash, dust, fumes, vapors, gases, other forms of air pollution, as defined in [CMR 310, § 7](#), Air Pollution Control Regulations, as amended, which can cause damage to human health, to animals or vegetation, or other forms of property, or which cause any excessive soiling at any point are prohibited.

2. **Noise Disturbance:** The Building Commissioner may determine that a noise source is subject to investigation, and if it is determined to be in violation of this bylaw, may take appropriate enforcement action, including the issuance of orders requiring the development and implementation of corrective measures, and/or imposition of fines or non-criminal penalties.

a. **Standards.** No person or persons owning, leasing, or controlling the operation of any source or sources of noise shall **cause or** permit **a condition resulting in the establishment of a condition of** noise pollution. Disturbing, offensive or objectionable noises shall not be produced in any zoning district or impact any space where people live, work or assemble in a way that unreasonably interferes with the comfortable enjoyment of life or the use of property.

1) **Continuous Noise.** For the purposes of this bylaw, continuous noise restrictions apply to permanent non-residential uses and home-based businesses where noise is a by-product of business operations (such as from exhaust equipment). Maximum permissible sound pressure levels measured at the property line of the noise source shall not exceed the values specified in the table below. In addition, maximum permissible sounds levels measured at sensitive receptors located within one-thousand feet of the property line of the noise source for noise radiated continuously from the noise source shall not exceed the values specified in the table below. Daytime is defined as between the hours of 7:00 a.m. and 9:00 p.m. and Nighttime is defined as between the hours of 9:00 p.m. and 7:00 a.m.

Octave Band Center Frequency (Hz)	Daytime (dB) 7:00 a.m. – 9:00 p.m.	Nighttime (dB) 9:00 p.m. – 7:00 a.m.
63	72	55
125	60	48
250	53	42
500	47	39
1000	43	36
2000	40	33
4000	37	30
8000	33	27
Overall Level (dBA)	52	42

Compliance with all octave band limits is required. If the Building Commissioner determines that the noise source contributes significantly to ambient noise levels at any distance from the property, sound levels may be measured in those locations beyond the source property line. **Compliance is required at all property lines of the noise source and at sensitive receptors located within one-thousand feet of a property line of the noise source. Noncompliance at any property line of the noise source or at any sensitive receptor located within one-thousand feet of a property line of the noise source is a violation.**

2) **Temporary Noise.** For the purposes of this bylaw, non-continuous noise restrictions apply to permanent non-residential installations and home-based businesses where noise is periodically produced. No person shall use or cause the

use of any noise-producing equipment or tool (such as for construction, repair, or demolition operations) between the hours of 9:00 p.m. and 7:00 a.m.

- 3) **Construction Noise.** Work at construction sites and in the operation of construction equipment including start-up and movement of trucks, vehicles, and machines shall commence no earlier than 7:00 a.m. and shall cease no later than 6:00 p.m., Monday through Saturday. No construction shall take place on Sundays, federal holidays or state legal holidays without the advance written approval of the Building Commissioner.

Advisory Note – State regulations authorize municipal police departments, fire departments, and board of health officials to enforce noise standards that are based on certain sections of [310 Code of Massachusetts Regulations \(CMR\), § 7](#), Air Pollution Control Regulations. Such regulations are distinct and separate from the Town's zoning regulations for noise.

- b. **Investigation.** The Building Commissioner may determine that a noise source is subject to investigation, and, if it is determined to be in violation of this bylaw, may take appropriate enforcement action, including the issuance of orders requiring the development and implementation of corrective measures, and/or imposition of fines or non-criminal penalties. If the Building Commissioner determines that an investigation is warranted, he or she or a designee, may undertake a noise study to determine if a non-compliant noise condition exists. The Building Commissioner may enlist the assistance of other Town personnel for the investigation. At the discretion of the Building Commissioner, a qualified acoustical consultant whose qualifications include Institute of Noise Control Engineering (INCE) board certification or equivalent experience may be engaged by the Town to assist in the investigation including measurements and documentation of violations. Depending on the particular site and its noise generators, the noise study shall include, at a minimum, measurements of:
- Ambient noise (Daytime and Nighttime) and
 - Operational noise levels (Daytime and Nighttime) at the facility property line and at Sensitive Receptors located within one thousand feet of the facility property line.
- c. **Noise Control Plan.** If the Building Commissioner determines that there is a violation, he or she shall order the owner or operator to come into compliance. The owner and/or operator of the noise producing use shall provide a noise control, abatement and mitigation plan to the Building Commissioner for review and approval, or otherwise bring the property into compliance with this bylaw and the order of the Building Commissioner. The plan shall address how the site will become compliant. Compliance shall be achieved through industry best practices and suitable mitigation measures. The plan shall be prepared by a qualified acoustical consultant whose qualifications include Institute of Noise Control Engineering (INCE) board certification or equivalent experience.
- d. **Corrective Measures** - Non-residential uses that produce non-compliant noise must install and maintain noise reducing equipment in accordance with the approved noise

control plan to meet the requirements of this section. The Building Commissioner may require the provision of reports to document ongoing noise compliance.

3. **Vibration:** No vibration which is discernible to the human sense of feeling for three minutes or more in any hour between 7:00 a.m. and 9:00 p.m. or for thirty seconds or more in any one hour from 9:00 p.m. to 7:00 a.m. shall be permitted. No vibration at any time shall produce an acceleration of **gravity of** more than 0.1g or shall result in any combination of amplitude and frequencies beyond the "safe" range on the most recent edition of Table 7, U.S. Bureau of Mines Bulletin NO. 442 (U.S. Department of the Interior).
4. **Odors:** The Building Commissioner may determine that an odor is disturbing, offensive or objectionable and is subject to investigation, and, if it is determined to be in violation of this bylaw, may take appropriate enforcement action, including the issuance of orders requiring the development and implementation of corrective measures, and/or the imposition of fines and non-criminal penalties.
 - a. **Standards** – Disturbing, offensive or objectionable odors as defined in Paragraph C. shall not be produced in any zoning district or impact any space where people live, work or assemble in a way that unreasonably interferes with the comfortable enjoyment of life or the use of property. Failure to meet either the Reasonableness Standard or the Measurement Standard listed below shall constitute a violation of this section.
 - 1) **Sensorial Reasonableness Standard** –The Building Commissioner, or designee, may determine, using only her or his sense of smell, that an odor is one which is disturbing, offensive or objectionable to a reasonable person with normal olfactory sensitivity.
 - 2) **Measurement Standards** – No disturbing, offensive or objectionable odor greater than that caused by the lowest odor detection thresholds as listed in the most recent edition of the [American Industrial Hygiene Association \(AIHA\) Odor Thresholds for Chemicals with Established Occupational Health Standards, Reported Odor Thresholds \(EG Table 6.3 in 2nd Edition\)](#) shall be permitted. Due to the potential of odorant mixtures causing more intense odors than individual odorant compounds in isolation, nothing in this Bylaw shall be interpreted as allowing for any disturbing, offensive or objectionable odors at or above the cited detection thresholds.
 - b. **Investigation.** The Building Commissioner or designee shall investigate odor complaints until determined to be without merit or resolved to the satisfaction of the Building Commissioner.
 - 1) **Assessment Area** – The Building Commissioner or designee shall investigate odor complaints for odors emanating from:
 - a) **Immediate Impact Zone** - Any resident, occupant, or owner of property located within 1,000 feet of the property line of the property with a source generating and emitting the disturbing, objectionable or offensive odor, as measured from property line to property line.

- b) Secondary Impact Zone - A collection of complaints from five or more residents, occupants, or owners of property located within 2,500 feet of the property line of the property with a source generating and emitting the disturbing, objectionable or offensive odor as measured from property line to property line.
- 2) The Building Commissioner or designee may investigate possible odor violations upon their own initiative or at the request of Town officials or staff and shall investigate public complaints about an odor of a suspicious or dangerous nature.
- 3) If the Building Commissioner determines that an investigation is warranted, he or she or a designee, may undertake an odor observation to determine if a disturbing, objectionable or offensive odor exists. At the discretion of the Building Commissioner, a technical odor consultant may be engaged by the Town to assist in the investigation including odor observation and documentation of violations. The odor consultant shall be trained in the practices of ASTM (American Society for Testing Materials) - E679 and meet the selection criteria of EN13725 (international olfactometry standard). As a component of such investigation, measurements may be done in the field by using:
 - a) Undiluted odor field observations (i.e. sniffing) or odor sampling to be performed at a frequency, duration, and locations appropriate for the odor source under investigation and the locations of odor complaints that have been received by the Town including those beyond the source property lines. The purpose is to detect and assess the presence of recognizable odors linkable to a specific source in ambient air. This may be accomplished by:
 - i. Grid method of analysis - Odor hours for a geographic area of evaluation to establish an odor hour frequency measurement.
 - ii. Plume method of analysis – Measurement of extent of the area where an odor plume originating from a specific odor source can be perceived and recognized under specific meteorological and operating conditions.

The following other forms of measurement may be used only as supplemental methods to evaluate persistent problems or higher intensity odors as a way to determine the severity of the situation.

- b) Field Olfactometry - A method to quantify odors in ambient air by means of a portable odor detecting and measuring device known as a field olfactometer. A field olfactometer measures odor strength and persistence using a Dilution-to-Threshold (D/T) ratio. The Dilution-to-Threshold ratio is a measure of odor concentration by determining the number of carbon filtered air dilutions needed to make the odorous ambient air non-detectable. The formula for calculating D/T with a field olfactometer is:

$$D/T = \frac{\text{Volume of Carbon Filtered Air}}{\text{Volume of Odorous Air}}$$

- c) Chemical Analysis – Instrumental methods of characterizing odor involving the identification and quantification of chemical compounds in an odor sample by

means of gas chromatography coupled with mass spectrometry, analysis of hydrocarbon molecules, and analysis of single gases such as ammonia and hydrogen sulfide.

- d) **Instrumental Odor Monitoring** – Instruments designed to mimic human olfaction in the detection and characterization of simple or complex odors. Also referred to as electronic (E) - noses.
- e) Any other method or best practice determined to be appropriate by the Building Commissioner.
- c. **Odor Control Plan** – If, based on the investigation, the Building Commissioner determines that there is a violation, the owner and/or operator of the odor-producing use shall be required to provide an odor control, abatement and mitigation plan to the Building Commissioner for review and approval o, or otherwise bring the property into compliance with this bylaw and the order of the Building Commissioner. The plan shall address how the site will become compliant and specify suitable corrective measures. Compliance shall be achieved through industry best practices and suitable mitigation measures. The plan shall be prepared by a certified environmental engineer, certified environmental professional, or certified industrial hygienist with experience in odor management, abatement and mitigation technologies. The Building Commissioner may also require the plan to include the provision of reports of ongoing odor monitoring and compliance.
- d. **Corrective Measures** - Non-residential uses that produce non-compliant odors shall be required to install and maintain odor-eliminating equipment in accordance with the approved odor control plan to meet the requirements of this section.

E. Exemptions

- 1) **Farming.** Impacts resulting from agricultural, farm-related, or forestry-related activities as defined by [G.L., c 128, Agriculture, § 1A](#), as amended, and Medway General Bylaws, ARTICLE XXXI, §2 Right to Farm, are exempt from these restrictions when such activities follow generally accepted practices. **Impacts from agricultural, farm-related, or forestry-related activities that are potentially hazardous, harmful to the environment, disturbing, offensive or objectionable, or constitute a nuisance, may be subject to alternative rules, regulations, and enforcement procedures.** ([G.L., c 111, §125A](#)).
- 2) **Residential Uses.** Impacts resulting from residential activities such as but not limited to barbecues, wood stove exhaust, driveway paving, gardening, and house painting are exempt from these restrictions.
- 3) **Repair and infrequent maintenance activities.** Repair and infrequent maintenance activities such as but not limited to those for septic and sewer systems are exempt from these restrictions.
- 4) **Construction.** Impacts resulting from construction, demolition, or repair work that occurs between 7:00 a.m. and 6:00 p.m. on public improvements authorized by a governmental body or agency, utility work and repairs, and other similar work on

private property pursuant to an order by a governmental body or agency for safety purposes are exempt from these restrictions.

Or act in any manner relating thereto.

ARTICLE 17: (Amend Zoning Bylaw: Central Business District Special Permits)

To see if the Town will vote to amend the Zoning Bylaw, Section 5.4.1 Special Permits in the Central Business District (new text in **bold**, deleted text in ~~strike through~~) as follows:

5.4.1 Special Permits in the Central Business District

~~In the Central Business district, the following provisions shall apply to uses allowed by special permit and are also available for applicants for uses permitted by right in order to propose a flexible site design.~~

A. Purposes

1. To further the goals of the Medway Master Plan
2. To encourage mixed-use development in the Central Business District with a balanced and vibrant mix of compatible business uses and multi-family residential development.
3. To encourage revitalization and economic investment in the Central Business District in a manner which represents the qualities of a traditional New England town center.
4. To encourage greater variety of housing to meet the needs of a diverse population with respect to income, ability, household types, and stage of life.
5. To improve walkability within the district and provide better access between housing, shops, services, and employment.

B. Applicability

1. A Mixed-Use Development may be allowed in the Central Business District by special permit from the Planning and Economic Development Board to include a combination of uses allowed by right and uses allowed by special permit as specified in Table 1 – Schedule of Uses.
2. The provisions of this Section are available by special permit from the Planning and Economic Development Board for uses permitted by right in order to achieve a flexible site design.
3. All development projects considered under this Section are subject to site plan review pursuant to Section 3.5 herein and the Medway Design Review Guidelines.

C. Definitions:

Mixed-Use Development: See definition in SECTION 2 DEFINITIONS

Multi-Family Building: See definition in SECTION 2 DEFINITIONS

A. D. Dimensional Requirements.

1. Minimum lot size: 10,000 square feet
2. Minimum continuous frontage: 50 feet
3. Minimum front-yard setback: Principal buildings shall be set back a minimum of 10 feet from the front lot line. Architectural features such as bay windows, porches, balconies, porticos, canopies, etc. shall not be subject to the 10-foot minimum setback.
4. Minimum side-yard and rear-yard setback: For lot lines abutting a residential zoning district, 25 feet of which the first 10 feet nearest each lot line shall not be used for the parking or storage of vehicles and shall be suitably landscaped. There is no side-yard or rear-yard setback for properties abutting other properties within the Central Business district.
5. Maximum building height: 60 feet

B. E. Residential Uses in a Mixed-Use Development.

1. ~~Except for assisted living residence facilities, a building comprised of multi-family dwelling units only shall not be permitted. A mixed-use building shall include multi-family residential units and retail, service, office, commercial or other business uses allowed in the zoning district (hereinafter referred to as "business uses") in at least the minimum percentage as set forth in Subsection E.2 below.~~
2. ~~In a three-story building, no more than 67 percent of the gross floor area shall be comprised of multi-family dwelling units. In a two-story building, no more than 50 percent of the gross floor area shall be comprised of multi-family dwelling units.~~

Except as provided in Section E.4 below, in a two-story building at least 50% of the gross floor area shall be comprised of business uses, and no more than 50% of the gross floor area shall comprise multi-family dwelling units and common areas and support facilities associated with those multi-family dwelling units. In a three-story building, at least 33% of the gross floor area shall be comprised of business uses, and no more than 67% of the gross floor area shall be comprised of multi-family dwelling units and common areas and support facilities associated with those multi-family units. In a building of four stories or more, at least 25% of the gross floor area shall be comprised of business uses, and no more than 75% of the gross floor area shall be comprised of multi-family dwelling units and common areas and support facilities associated with those multi-family units. The gross floor area comprised of business uses may include hallways, lobbies, maintenance areas, security areas, closets, and other areas which serve exclusively the business uses in that building.

3. Multi-family dwelling units may not be located on the ground floor of a mixed-use building or development unless:

- a. The building with the multi-family dwelling units is set behind another building which has business uses on the ground floor and a front façade that faces a public way or primary access drive; or
 - b. The residential portion of the ground floor is set behind the business uses within the same building which has a front façade that faces a public way or primary access drive.
- 4. A mixed-use development may include a building comprised of only multi-family dwelling units and common areas and support facilities associated with those multi-family dwelling units under the following conditions:**
 - a) A building comprised of only multi-family dwelling units and common areas and support facilities associated with those multi-family dwelling units shall be set back at least one hundred feet from the Main Street right-of way; and
 - b) The amount of gross floor area of the building comprised of only multi-family dwelling units and common areas and support facilities associated with those multi-family dwelling units which would otherwise be required by Section E.2 above to include business uses shall be added to the required business uses gross floor area of the other building(s) of the mixed-use development as additional business use space, so that the total amount of gross floor area for business uses in the mixed-use development will equal or exceed the total gross floor area for business uses which would result if no building were devoted solely to multi-family dwelling units.
- 4.5.** No more than 10 percent of the total number of a mixed-use development's residential dwelling units shall have more than two bedrooms.
- 6. The provisions of Section 8.6 Affordable Housing shall apply to Mixed-Use Developments.**
- E. F.** A minimum of 15 percent of the site shall function as landscaped or public space. The landscaped or public space shall be architecturally integral to the site or, as appropriate and practical, to abutting sites. No space that is used for vehicular parking or circulation, or loading shall be included as landscaped and/or public space.
- D.G.** Special Permit Review Criteria.
 1. Special permits granted under this Section 5.4.1 are not subject to the special permit criteria under Section 3.4.
 2. Before granting a special permit for a ~~special permit~~ **mixed-use development** or flexible site design of a permitted use in the Central Business district, the ~~special permit granting authority~~ **Planning and Economic Development Board** shall find that all of the following criteria are met:
 - a. The proposed uses **and site design** represent the qualities of a traditional New England town center;

- b. The proposed site design is environmentally sound and is readily accessible to and useable by pedestrians;
- c. The proposed site design reflects and advances the goals and objectives of the Medway Master Plan as updated;
- d. Adequate pedestrian and (where applicable) vehicular linkages are provided within the site and connecting to abutting properties;
- e. Streets, driveways, sidewalks, landscaped areas and public services are laid out in a safe manner;
- f. Any detrimental impacts of the use on abutting properties and/or residential neighborhoods have been adequately mitigated; and
- g. The site design incorporates the site's existing topography and protects natural features to the maximum extent possible.

E. H. Design Requirements – The Planning and Economic Development Board shall adopt Central Business District Special Permit rules and regulations to administer this Section 5.4.1 including submission requirements and procedures and Central Business District design guidelines. Such guidelines may include any or all of the following:

- 1. Façade design for buildings visible from public ways
- 2. Vehicular or pedestrian connections to abutting commercial or residential areas;
- 3. Provision of pedestrian amenities; and
- 4. Sustainability, i.e., efficient resource use throughout a building's life cycle from siting to design, construction, operation, maintenance, renovation and deconstruction.

Or act in any manner relating thereto.
