

Franklin/Medway Diversion Program 2019 Annual Report

The Franklin/Medway Jail Diversion Program (JDP) was launched in 2018 and pairs specially trained crisis clinicians from Advocates Inc, with police officers at the Franklin/Medway Police Departments. These embedded clinicians respond to calls for service and 911 calls with patrol officers; providing immediate on-scene de-escalation, assessment and referrals for individuals in crisis. The primary goal of the Franklin/Medway-JDP is to re-direct individuals committing non-violent offences, out of the criminal justice system and into more appropriate community based behavioral health services.

JDP Interventions 2019

On-scene crisis interventions are facilitated through the dual response of police and clinician to calls for service involving individuals in crisis. Chart 1 represents the 390 individuals referred to the Franklin/Medway Jail Diversion Program clinician (s) by Franklin/Medway police officers in 2019.

Chart 1: Franklin/Medway Co-Response Interventions 2019

Diversions from Arrest 2019

The primary goal of the Franklin/Medway Jail Diversion Program is to divert low-level offenders away from the criminal justice system and into more appropriate, community-based behavioral health treatment. During 2019, a total of ten (10) individuals with behavioral health conditions were diverted from arrest by Franklin/Medway police officers and into treatment facilitated by JDP clinicians. The average percentage of those eligible for arrest diversion who were diverted is 97%. Chart 2 represents the percentage of diversions from arrest by month.

Chart 2: Franklin/Medway JDP Arrest Diversions 2019

In addition to the benefit of diverting individuals in crisis from arrest, these diversions represent an *estimated* cost savings of **\$25,200*** to the criminal justice system (\$2,520 per arrest event).

Diversions from the Emergency Department 2019

A secondary goal of the Franklin/Medway Jail Diversion Program is to decrease the frequency of individuals with behavioral health conditions being referred to the hospital emergency department (ED) for psychiatric assessment by Franklin/Medway police officers. During 2019, sixty-seven (67) individuals were diverted from unnecessary hospital admissions due the presence of a JDP

clinician on scene; to facilitate assessment treatment recommendations. Chart 3 represents the monthly hospital ED diversions facilitated by the Franklin/Medway JDP team.

Chart 3: Franklin/Medway Emergency Department Diversions 2019

In addition to the benefits of receiving care outside of the hospital, these emergency department diversions represent *estimated* health care cost savings of **\$268,000*** (\$4,000 per ED diversion). Combined, estimated cost savings due to arrest and emergency department diversion activity equals **\$293,200***. Thank you for a year of partnership!
